

# PARENTS AND SUPPORTERS CODE OF CONDUCT

1. There must be no negative words said to the players or coaches - encouragement only please.
2. If you have a problem with your child not playing or are unhappy about anything to do with the club, then this must be discussed outside of training and game times, either with the team manager or club chairman.
3. There must be no arguing with or abusing of the referee.
4. Any fines incurred by players during the season will be reviewed by the club committee. This review will take into account the severity of the incident in question and will decide responsibility for payment.
5. Your manager or coach must be notified 48 hours in advance (where possible) if you are unable to play a pre-arranged game.
6. Ensure your child arrives and is collected at the correct time.
7. Inform your manager if there has been a change in your child's medical condition, or if they are carrying any injuries.
8. No swearing at any player, official or other supporters.
9. No abusive or racial remarks are to be made towards any player, official or supporter.
10. No drinking alcohol during training sessions and matches.
11. Ensure that suitable and safe footwear and clothing are worn by your child for all training and matches.
12. Without approval from the team manager to do so, parents/guardians/supporters should refrain from giving children instruction on what they should be doing during matches and training as the children are trying to carry out the instructions of the manager and/or coach of the team. Additional instruction merely confuses the children.
13. Any person wishing to video or photograph any match or training session must first gain the permission of the manager (the team manager will be aware of any players in his group whose parent/guardian has not given permission for such) prior to commencement of video or photography. The team manager must in turn ask the permission of the opposing team's manager if a game is being played.
14. Always involve the Manager or coach by talking about arrangements and decisions relating to further football development.
15. Camera phones must not be used in or around the Changing rooms.
16. Abide by the FA Respect codes of conduct.
17. No adverse comments regarding any players, Club officials or Match officials to appear on any Social Networking sites.
